

Manifesto of "Nation of Leaders"

Our mission – to foster the emergence of mature members of Belarusian civil society.

"Nation of Leaders" is an educational hub for learning, cooperation, and integration of people, communities, and initiatives that contribute to building a democratic, independent, and prosperous Belarus.

We are a team that creates and develops a multifunctional educational ecosystem for Belarusians worldwide. We support a deep transformation of civic awareness among individuals and communities, enabling them to create and implement initiatives to improve the quality of life.

We share fundamental values: human rights, life, and dignity; freedom (of speech, choice, will, and personal freedom); law, legality, and justice. As Belarusians, we are guided by the values of resilience and the development of our civic nation, as well as the vision of Belarus as an independent and thriving country, setting trends and directions for civilizational progress. We appreciate safety and sustainability; respect, mutual support, and tolerance; professionalism, aesthetics, and harmony.

Our hub helps Belarusians in developing their key areas of interest, enhancing their knowledge and skills necessary for building their own lives and the future of their country. We create a space for designing and implementing initiatives that strengthen individuals, communities, and society as a whole.

We continuously develop and experiment; expand the reach of our influence, refine methods and formats of interaction, and create new educational products, using the expertise and experience of leading professionals in their fields. Our team is guided by a **collective approach** in defining goals and making decisions, considering the opinions of the participants in our projects.

We strive to build an international ecosystem of informal civic education for adults, collaborating with educational service providers, Belarusian and international organizations, businesses, and other interested stakeholders. Our cooperation is based on ethics, trust, competence, mutual benefits, knowledge exchange, and resource integration.

The Foundation for Civic Development "Nation of Leaders" – is a non-profit organization registered in Poland on August 9, 2021, under the number 0000914944.
